take two caps daily for maintenance or 3  
caps daily for full clinical dose. Calcium  
absorption is increased when taken with  
meals.

Did you know most calcium products  
are made from ROCK? Why take  
limestone calcium when you can  
have a complete, **PLANT** whole-food  
mineral complex?

Patent pending AlgaeCal® is an ocean  
algae from South America that is  
revolutionizing calcium supplementa-  
tion. AlgaeCal is more than a rich  
calcium source – it also contains  
large amounts of **magnesium** and  
bone supporting trace minerals – and  
all are plant-derived for bioavailability!
